

# BOMU HOSPITAL

Health • Hope • Humanity

BOMU REPORT

January—November 2018

Bomu Hospital is a not for profit registered and recognized non-governmental healthcare organization. It is a project of Mkomani Clinic Society (MCS), an entity that came into existence in the late 70's when a group of citizens who were conscious of the dire lack of accessible, affordable health care services for the poor and destitute, got together and established a small outpatient facility in the Mkomani area of Mombasa, Kenya. In the last 40 years, the Society has grown, and so has its activities. Today, MCS operates the Bomu Hospital, its flagship institution that is located in Changamwe, close to the Moi International Airport. The facility has several health care programs that cater to the health care needs of the poor, malnourished and the HIV affected and afflicted.

## BOMU HOSPITAL IN PARTNERSHIP WITH FISTULA FOUNDATION

Bomu has partnered with Fistula Foundation since June 2014. The Fistula program offers free corrective fistula surgeries to women in need.

## HIV EXPOSED INFANTS - GRADUATION

Mother-baby pair - HEI (HIV Exposed Infants) graduation at Bomu Hospital & Satellite

Every month, a graduation ceremony is organized for the HEI-mother pair in appreciation for their dedication towards better health. The pair is presented with a gift hamper as a motivation for other such pairs.

The function took place at Al-Walidayn in Kwale County.

A proper criteria was put in place to ensure that only the needy and deserving benefitted from the project. Recipients were selected through a collaborative agreement between the CHVs and their team, eligibility was confirmed by the social workers who made verification visits to ascertain the needy.

Adolescents undergoing a counseling session in Timboni. They were taught on how to make healthy living and preventive choices in order to avoid stigma in the society.

DONATION - IEC MATERIAL TO KENYA FERRY SERVICES

Bomu provided two facilitators for voluntary and counseling services at Kenya Ferry for a period of two months. In addition, it also provided other IEC materials as requested.

Children receiving food ration

OVC caregivers during a financial capability training

Under the OVC (Orphan & Vulnerable Children) carried out various activities such as Birth registration, Home visits, financial capability training and vocational school fees payment, mattress distribution, drip irrigation, goat and cow rearing projects.

Happy OVC and their caregiver on a new mattress

Civil registrar staff issuing birth registration to OVC - caregivers

Mattresses being distributed to OVC caregivers

In the month of August, we had our signature Youth Fun Day at the main facility as well as other branches. Youths were given gifts & snack packs, various activities took place and the best performers were awarded gifts.

Families receiving mattresses

Drip Irrigation project under OVC

## EDUCATION SUPPORT

The program provided vocational start up kits to 24 OVC who undertook different courses. These will act as business start ups upon completion of their training which will help create employment for themselves and their peers.

72 OVC caregivers received a training on how to make Khakhi bags.

A retreat for Community Health Workers (CHW) was organized at Wild Waters. Gifts in form of bag packs & Bata shoe vouchers were given in appreciation for their hard work.

Khaki Bag project aims to empower OVC caregivers to improve their household economic status.

A vocational training on tailoring was conducted and all required items were provided.

## CME—AT BOMU LIKONI BRANCH

Continuous Medical Education (CME) was organized at Bomu Likoni branch. Several people benefited from this exercise.

## Bomu in partnership with Smile Train

It is the little gifts of service and kindness that makes the most difference. Nothing like seeing a child smile.

Children registered for cleft surgeries under the Smile Train Program

All smiles following successful cleft surgeries

## BREAST CANCER AWARENESS

Bomu Hospital held a breast cancer screening day where all women who attended were given a free screening & examination, health talk was conducted on self examination techniques.

Registration of patients

## BOMU IN PARTNERSHIP WITH

## FISTULA FOUNDATION

The week long camp started with a training session whereby 11 clinical staff from three Counties were first trained on how to perform physical screening. Later, patients were screened and those eligible were admitted and booked for theatre.

## OVC PROGRAM - ECONOMIC STRENGTHENING

Kiondo Bead project was conducted where 78 OVC care givers were trained. A market research to establish viability of using the skills and opportunities was done with assurance of profitable income.

## OVC CAREGIVERS

Appreciating OVC care givers for performing exemplary household economic strengthening projects initiated by Bomu Hospital over the past year.

## MARKING WORLD DIABETES DAY

Free blood sugar testing was conducted for one day at the hospital.
